

Dear host family,

let me introduce myself .My name is XXX and XXX I was born on August 1 near the village XXX XXX. I have finished the Russian school in 2008 I started studying at the University of International Relations and World Languages. By profession I am a teacher of the German language. I chose this profession because I like children. I have decided to work in the school, although this work is very stressful and difficult.

My family is not so big. There are my father, my mother, my sister and I, of course. But I have many friends who are very friendly and with whom we celebrate almost all festivals together. My father's name is XXX (53) and he is a carpenter by profession. My mother is called XXX (48), and she is a nurse. My sister's XXXX (25). When I have free time I am engaged in hobbies. My hobbies are foreign languages, reading, soccer, traveling and animals. We live in the village and have a hangover and 2 dogs. I think that living with pets is interesting and beautiful. This is simply a great pleasure!

I was only a year as an au pair in Germany for family XXXX and I am currently working as an au pair in Austria Family XXX. These two host families are really nice. Until now I have contact with my host family in Germany. I experienced carnival, Christmas, Communion, Easter. All this was something new and interesting for me. I got a lot of experience of working as an au pair. Primarily, naturalness of experience in education. Because an au pair is also a big sister, a nanny for guest children. I met also a lot of people, friends, culture, nature and traditions met. My knowledge of the German language, I have also improved. In Germany I have done successfully linguistic test B2. The work as an au pair is really very interesting and important. It requires strength, patience and resourcefulness. One needs to be far away from the family, from home. And that helps quite right to be an adult to be able to make decisions independently. To my work as an au pair in family XXX belonged - the children wake up, prepare breakfast, prepare children for school and kindergarten, cook food, help with household chores. I had to accompany (my au pair child) for piano lessons and 1 times a week Merle. But the most important thing in my work was, of course to care of children. e.g. tinkering, play games, romp around in the garden, walking, accompany the family on excursions such as visit the indoor pool or take other things. It is also very important that the children have on interest. The work as an au pair really brings a lot of fun. It's not just to do with children nonsense, but also be responsible for the children and with children be patient. Here, in Austria I work with family XXXX, which is also very nice and friendly. I have to take care of 3 children 5,7 and 13 years old. To my work as an au pair in Austria children belongs - to school and kindergarten finish, cook, play and help with household chores. I've also done a lot of traveling, make new friends and the culture of Austria met.

I am very happy that I have made such an independent travel in my life. I would like to work for a year as an au pair in Switzerland. Switzerland is just wonderful! I like the nature and culture of Switzerland. I would like to develop my knowledge of the German language and gain experience in child care, because it is very important for my career. Seeking a nice and friendly family. And I very much hope that I can find a nice family in Switzerland. The most important thing for me in the family's - attention, kindness and support. On a positive response I would be glad very. Thank you for your attention!
